I am a young emerging Adelaide-based artist whose work is continually inspired by the otherworldly tales of wonder I grew up listening to during my childhood, and the magic I continually find in my everyday life. Strange creatures, swirling combinations of colour, an obsession with texture - a desire to express a glimpse into a strange world beyond our own that surpasses the mundane façade of the ordinary. I create with the aim to inspire and create a sense of intrigue for the viewer – to make something people want to get up close to and stare at. The unique characters I create exist as an extension of myself and allow me to express what exists within, and hopefully act as a point of question for those who view it. After discovering glass in 2017, my passion for this medium endlessly continues to grow, and I am looking forward to seeing where it takes me. Glass has become the primary focus of my artistic practice at present, and my colourful sculptures give life to my work in ways I never previously thought possible, and the potential lying within this medium is something which continues to astound and inspire me. Beyond the hotshop, I still aim to create and embrace the world of visual art through graphite, ink, and acrylic – the places where my enthusiasm for art first rooted itself.

Experience and Professional Development
